

For deliveries up to 31st October 2017

At Reynolds, we always try to source British produce when it's available because we believe it's the right thing to do. We work closely with British growers to help support local farming and provide a sustainable UK supply base for Reynolds' customers now and in the years to come.

It's well documented that British consumers have an affinity for seasonal, home grown food and rest assured that by choosing Reynolds as a supplier, your customers can enjoy British sourced produce all year round.

[The Red Tractor](#) is an independent mark of quality and origin that guarantees the produce we buy meets high standards of food safety and hygiene, animal welfare and environmental protection.

At Reynolds, we have an ever changing range of Red Tractor assured, seasonal produce and a list of our current fresh produce offer can found on [our website](#).

But although our roots sit firmly with fruit, vegetables and salad, our product range extends to other areas, including dairy. All the products listed below come with the Red Tractor assurance and are available all year round.
